

## Clubhouse Redevelopment

As most will now be aware the result of the recent referendum was a clear vote of 71% in favour of the development as outlined in the presentation and in the voting pack which was sent to eligible members. 426 of the 534 members eligible to participate voted, with 303 in favour, 108 against and 14 spoiled papers, with 1 abstention.

Having been through a very lengthy process in order to get to this point, we are delighted with the result as well as the level of returns reflecting the interest in this most important issue. With this mandate, we are ready to proceed, subject to a couple of minor planning consent conditions, which will be dealt with prior to any construction taking place.

The provisional date for commencing ground works is the beginning of January, although members may see some preparatory work going on prior to Christmas.

This is a milestone in the club's history and we are determined to give the membership a Clubhouse to be proud. The committee assures all members that we will do our utmost to keep disruption to a minimum and to stay within the budgeted costs and cash flows which were outlined in the presentation.

Once work has begun, we will be giving regular updates regarding progress to give members a full picture of what is happening and when.

Thank you

**James Weigall**  
**Chairman, Management Committee**
